

Sani:Kit

A complete set for the hygiene of environments
and personal protection

Sani:Kit

Cleanliness, hygiene and protection, always at your disposal.

Due to the recent health emergency, some good hygienic practices have become fundamental to avoid the spread of pathogens, especially the virus SARS-CoV-2 (cause of the disease COVID-19).

Wearing an adequate face mask, sanitizing frequently our hands as well as the surfaces we get in contact with: these are absolute necessities for which we always need to have the right products at hand.

Sani:Kit is a compact set, easy to carry, designed for those who need a complete solution for personal protection and environmental sanification as well, from the floor to any surface.

Alchemy Industry S.r.l. is a young company based in Pomezia, created from the meeting between Alessandro Amato, with a background of thirty years of experience in the field of chemistry and cleaning, and Gianluca Vignola, with extensive international experience in social innovation and corporate social responsibility.

Alchemy's **highly specialized chemical laboratory** consists of professionals of proven competence and boasts solid **collaborations with university research institutes**.

The company based in Rome stands out for its research and development activities: it creates innovative formulations and new production technologies, which allow to bring to professional cleaning market a range of practical, sustainable and affordable products.

Alchemy Industry accepts with enthusiasm the technological and ethical challenge of revolutionizing cleaning activities, to improve people's quality of life without losing sight of environmental impact.

Founded in 2005 as a spin-off of the Swiss Federal Institute of Technology in Zurich (ETH), HeiQ is a **leading textile innovation company** that creates some of the most effective, durable and high-performance textile technologies currently available on the market.

The goal of HeiQ is to improve the quality of life of billions of people by perfecting an everyday use material: textile. Combining scientific research, manufacturing of specialty materials and branding for consumer ingredients, HeiQ is the ideal innovation partner to create differentiated and sustainable textile products.

Kit contents

Sani:Kit

Sani:Igienic pH 7

SANITIZING DEODORIZING FLOOR DETERGENT

Liquid sanitising detergent containing cationic surfactants to clean and sanitize all washable surfaces every day. It has an effective cleaning and deodorant action, thoroughly sanitizes the surfaces by mechanical action.

USE:

Bathroom sinks, sanitary ware, taps, floors and other washable hard surfaces.

CONTENTS:

1000 ml

Sani:Vapo pH 5,5

ALCOHOL BASED MULTIPURPOSE SANITIZING CLEANER

Multipurpose isopropyl alcohol based for cleaning all washable surfaces. Thanks to the mechanical action of the solvent, it removes dirt quickly from any surface, ensuring an effective sanitizing action. Evaporates quickly and without leaving any residue.

USE:

Spray the product on the surface, leave for a few moments, then wipe with a dry cloth until it dries.

CONTENTS:

750 ml

Sani:Hands pH 7

HYDROALCOHOLIC GEL HAND CLEANER

Formula with more than 70% alcohol for disinfection of the hands enriched with Aloe Vera.

USE:

Pour a small amount of product and rub until it dries.

CONTENTS:

80 ml

500 ml

Sani:Active Mask

FILTERING ANTIVIRAL FACE MASK WITH HEIQ VIROBLOCK

Medical Device Class 1 made with multilayered fabric.

External layer made of 100% cotton treated with water-repellent and with HeiQ Viroblock.

It performs an antiviral, antimicrobial and particulate function.

HeiQ Viroblock is a combination of silver and vesicle technology designed to inhibit growth and persistence of bacteria and viruses, including SARS-CoV-2 (cause of the disease COVID-19) ¹

Face masks are reusable, machine washable up to 40° C.
Masks can also be sanitized using a breathable sanitizing spray.

CONTENTS:

2 unisex face masks, black
